

VISALIA

Coalesse Design Studio, USA

coalesse®

Connecting.

As social spaces in offices evolve toward a more residential aesthetic, the sweet spot in seating is lounges that feel crafted and inviting. Visalia hits the sweet spot.

———— Visalia collection is a short and compact range of lounges, sofas, and soft benches. Efficiently scaled it can be grouped to promote collaboration, or arranged for relaxed reflection in offices, lobbies or homes. Users can touch down, sit back and confer.

———— Visalia works a room. A sculpted Tuxedostyle lounge, its quality-stitched upper and lower upholstery facets and slim aluminum base give designers the opportunity to play with expressive two-tone motifs.

“The only important thing about design is how it relates to people.”

— *Victor Papanek*
